

To test cognitive function you will need:

- An ANAM computer from the NCAB
- The Soldier's baseline score

Here's how to get them

NCAB Points of Contact

- ANAM Program Manager:
OTSG.ANAM_admin@amedd.army.mil
- Help Desk - To request baseline scores, other data issues:
ANAM.baselines@amedd.army.mil
- Deputy Program Manager of Operations - To request an ANAM Computer:
ANAM.operations@amedd.army.mil
- Logistician - For shipping labels, repairs:
ANAM.operations@amedd.army.mil

Neurocognitive Assessment Branch
Propensity Office for Rehabilitation & Reintegration
1509 Leesburg Pike
Suite 684
Falls Church, VA 22041

ANAM and NCAT are Identical.

During deployment, you WILL see Traumatic Brain Injuries (TBIs).

The Neurocognitive Assessment Branch (NCAB) has over half a million baseline scores available.

Scores inform treatment and return-to-duty decisions.

How to Get/Return a Computer • Request a Baseline • Secure Repairs

How to request an ANAM computer

Neurocognitive Assessment Branch:
ANAM.operations@amedd.army.mil

Information for Deploying Military Psychologists

Get a Computer

Simply send an e-mail (including your shipping address) to:

ANAM.operations@amedd.army.mil

ANAM computers come from the NCAB and are pre-loaded with software that:

- Conducts the ANAM test
- Generates the ANAM report
- Encrypts the data

Currently, you must have an ANAM computer to administer the ANAM neurocognitive test after a traumatic brain injury.

What You Get

- DA Form 3161 (digital and hard copy)
- Computer equipment
 - ANAM Laptop
 - Mouse and mouse pad
 - Locking device
 - Carrying case
- ANAM CD (briefing slides, POC list, etc.)
- PAR software (shipped separately)
 - Personality Assessment Inventory Software Suite
 - Victoria Symptom Validity Test
 - Halstead Category Test

Request a Baseline

Once you're in theater, if a patient presents with symptoms of TBI or concussion, ANAM can help assess the severity of the cognitive impairment.

To do this you will need to conduct a post-injury ANAM and compare it to the Soldier's individual pre-deployment ANAM baseline on file at the NCAB.

Call or send an e-mail:

Help Desk:
703-325-6106 /
DSN 221-6106

ANAM.baselines@amedd.army.mil

The NCAB will send that Soldier's baseline to you for use in assessing the mTBI and the patient's recovery.

Repairs

ANAM computers have a three year service contract. If yours malfunctions and needs repair, you will be sent a replacement.

Send an e-mail to the NCAB Logician:

ANAM.operations@amedd.army.mil

You will also receive a prepaid shipping label to use for the return of the original computer. Please return it to the NCAB as soon as possible.

Return After Deployment

When your deployment is winding down, send an e-mail to the NCAB Logician.

In the e-mail, tell the logistician how you want to ship the computer and other equipment (both are free) - either via Official mail (anywhere) or FedEx (CONUS).

If using FedEx, the Logician will send you a pre-paid shipping label. Box up the computer and other equipment and mail it to the NCAB.

Check against the DA Form 3161 to ensure you have returned all equipment issued to you.

Training

- Training in ANAM use is available and centrally funded. Call or e-mail:
 - 703.325.6114
 - ANAM_admin@amedd.army.mil

**We ship anywhere,
but CONUS
is much faster.**

Tips

- Upon receipt, check the equipment against DA Form 3161 and return it to NCAB.
- The ANAM computer is issued to you, personally. It must be returned when your deployment ends.

Important

Keep the receipt — It is your insurance if the package gets lost or damaged.
